

CUSTOM DESIGN CO.

Special Gift

Design it. Gift it. Love it.

An e-commerce platform for personalized, customized gifts — built with HTML, CSS, JavaScript & ASP.NET Core.

What is Special Gift?

The Problem

Finding unique, personalized gifts online is difficult. Generic products lack meaning and personal touch for special moments.

Our Solution

Special Gift lets users upload their own designs onto products like mugs, stickers, tote bags — making every gift truly one-of-a-kind.

Target Audience

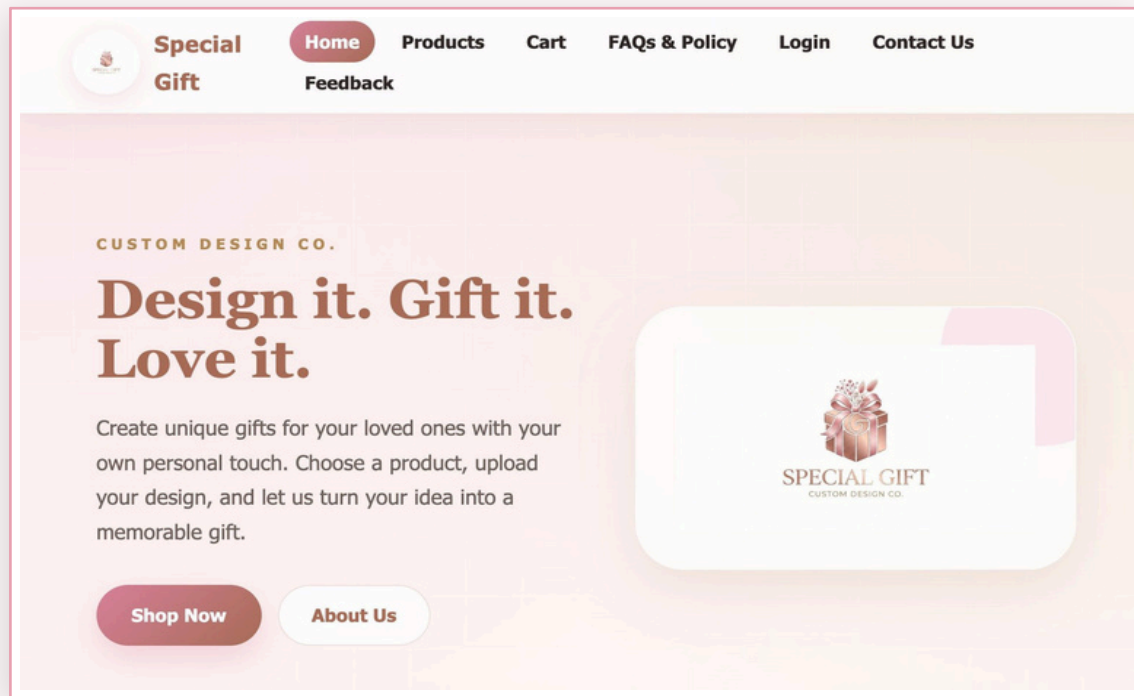

- Individuals looking for unique, personalized gifts for birthdays, anniversaries, graduations & special occasions.
- Small businesses wanting custom branded merchandise.

E-Commerce

Customized Products

ASP.NET Core

Central Homepage

Brand Identity

Consistent 'Special Gift' branding with logo and signature rose palette.

Clear Navigation

Persistent navbar: Home, Products, Cart, FAQs & Policy, Login, Contact Us.

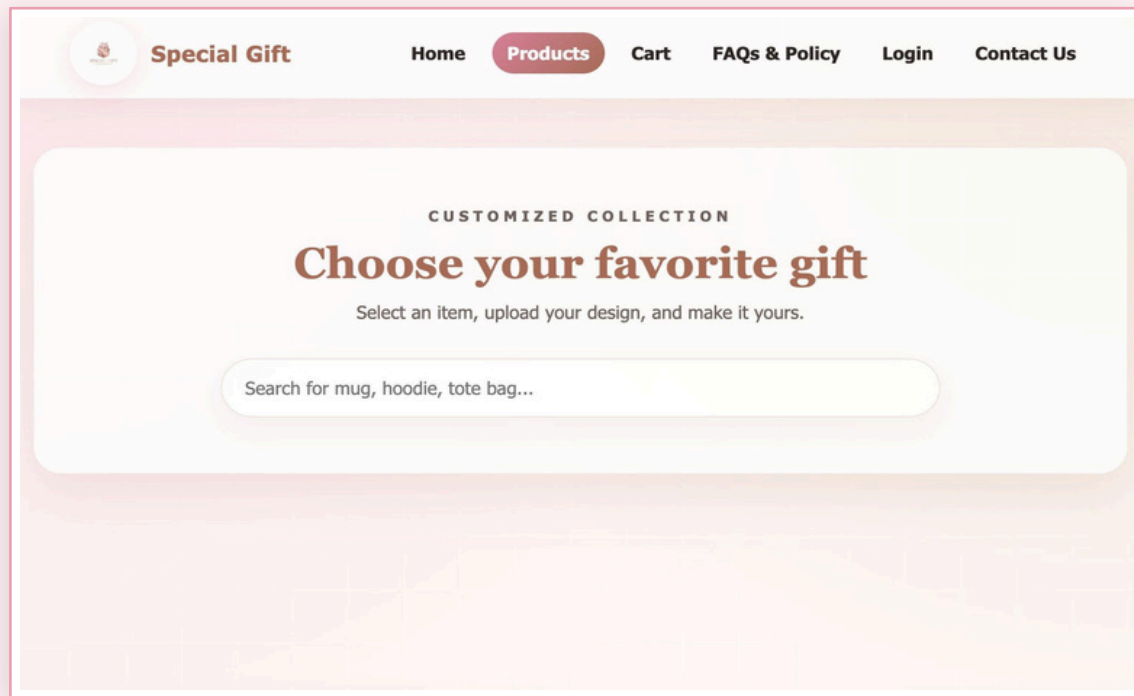

Hero Section

"Design it. Gift it. Love it." with Shop Now & About Us CTAs.

About Section

Design, Gift, Quality — three value pillars presented in clean cards.

Customized Collection

Smart Search Bar

Search products by name (mug, hoodie, tote bag...) in real-time.

Customizable Items

Users select a product, choose color, upload their design image, and add notes.

Product Categories

Mugs, stickers, tote bags, gift sets, and custom packaging.

Admin Controls

Admin can add or remove products from the catalog via a dedicated panel.

Apply

Order Summary

Shows product, color, notes, subtotal, shipping, and total in SAR.

Discount Codes

Promo code input (e.g., GIFTS) with apply functionality.

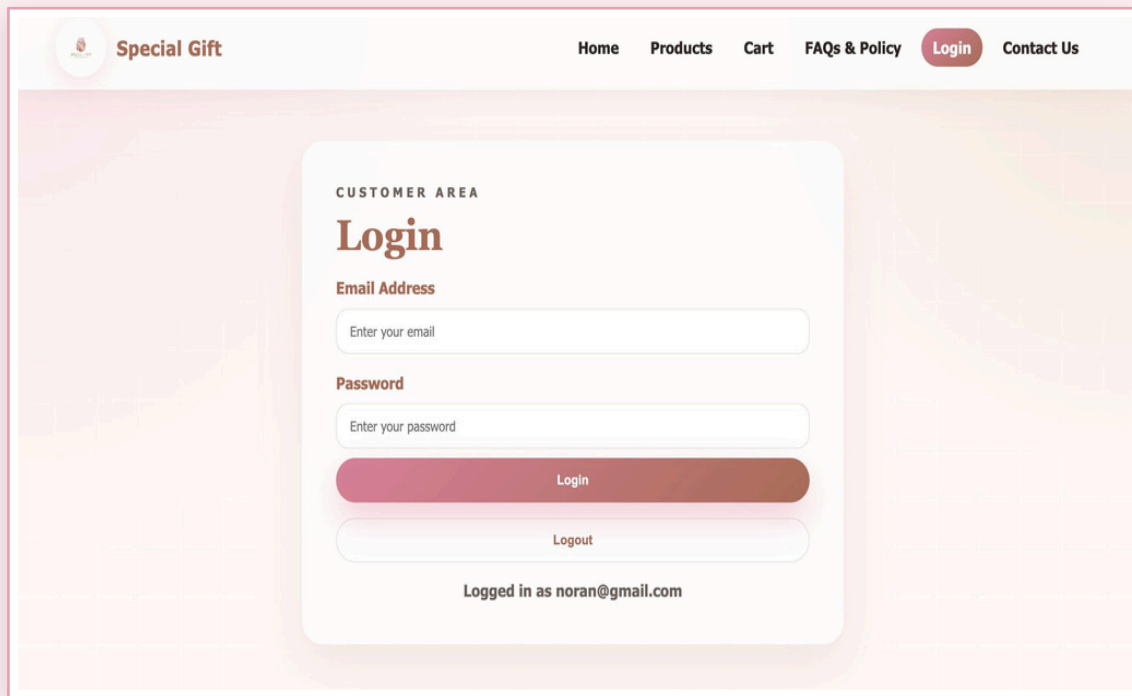

Payment Details

Card number, card holder, expiry month/year, and CCV fields.

Place Order

Final confirmation button to complete the purchase.

Login & Logout

The screenshot shows a web application interface for a 'Customer Area'. At the top, there is a navigation bar with a 'Special Gift' banner, a logo, and links for 'Home', 'Products', 'Cart', 'FAQs & Policy', 'Login' (highlighted in a red pill button), and 'Contact Us'. The main content area is titled 'CUSTOMER AREA' and features a 'Login' section. This section includes two input fields: 'Email Address' with the placeholder 'Enter your email' and 'Password' with the placeholder 'Enter your password'. Below these fields are two buttons: a prominent red 'Login' button and a light blue 'Logout' button. At the bottom of the login form, it displays 'Logged in as noran@gmail.com'.

Customer Area

Dedicated login page under 'Customer Area' header with email and password fields.

Session Status

Displays currently logged-in user email (e.g., noran@gmail.com).

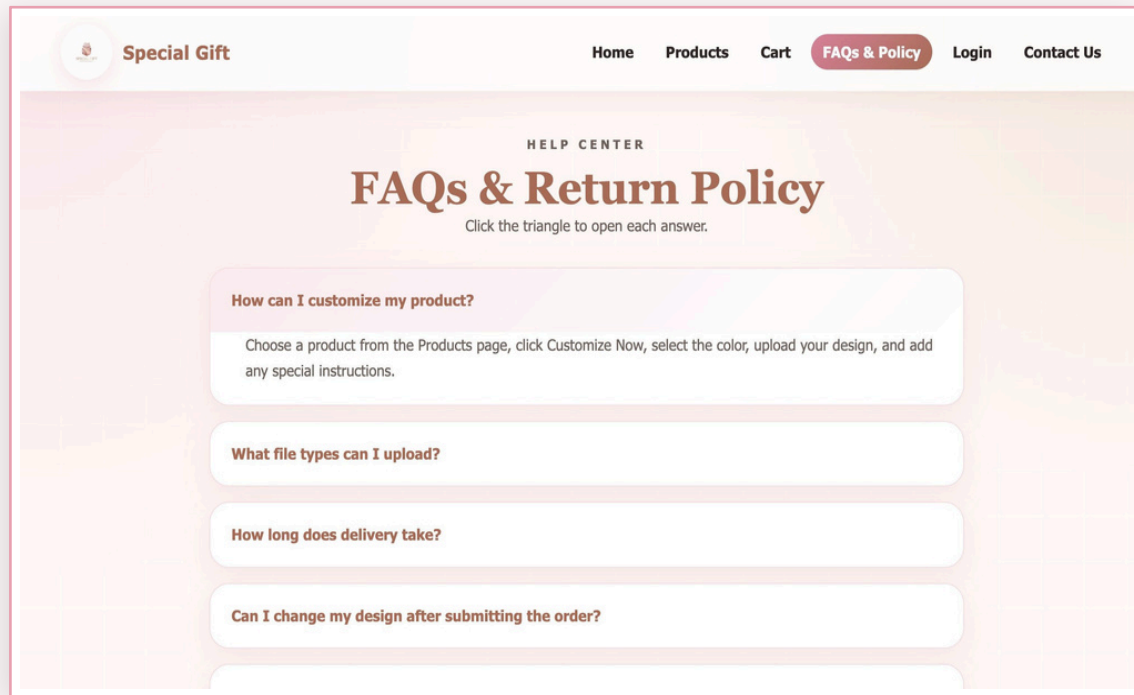

Login & Logout

Both login and logout buttons available on the same page for easy session management.

Backend Auth

User authentication implemented using ASP.NET Core with secure credential handling.

FAQs & Return Policy

Accordion FAQs

Interactive expandable questions — users click to reveal answers.

How to Customize

Step-by-step guide: choose product → click Customize Now → upload design.

File Upload Info

Explains accepted file types for design uploads.

Delivery & Changes

Covers delivery timelines and post-order design change policy.
